DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

2. Claims 1, 5-6, 10, 11, 15-16, 20-21 and 25-26 are rejected under 35 U.S.C. 102(e) as being anticipated by Ochi et al. (Ochi) (US 6,483,939).

With regard to claims 1, 6, 11, 16 and 21, Ochi discloses a data processing system comprising: a data accumulating means to accumulate virtual space data as a set of 3-dimensional data specifying shape, a coordinate system setting means to set a virtual reference point and virtual coordinate axes in said virtual space, a detecting means to detect a relative position and a gradient in a real space, a position specifying means to specify virtual positions in said virtual space in accordance with said position data detected by said detecting means, an area selecting means to select a desired

area in said virtual space in accordance with said virtual positions specified by said position specifying means, and a storing means to store an image of said desired area selected by said selecting means (col 7, line 64 – col 13, line 53).

With regard to claims 5, 10, 15,20 and 26, Ochi discloses wherein said 3-dimensional data further includes data on color, dimension and texture (col 8, lines 15-22).

With regard to claim 25, Ochi discloses wherein said data processing system has a plurality of moving means in said virtual space (col 7, line 64 – col 13, line 53).

Allowable Subject Matter

3. Claims 2-4, 7-9, 12-14, 17-19 and 22-24 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

4. Applicant's arguments filed 3/15/05 have been fully considered but they are not persuasive.

Applicant argues Odi does not teach or suggest detecting a relative position and a gradient of the coordinate system setting means against the virtual reference point set by the coordinate system setting means.

Odi discloses a detecting means to detect a relative position and a gradient in a real space, a position specifying means to specify virtual positions in said virtual space in accordance with said position data detected by said detecting means, an area selecting means to select a desired area in said virtual space in accordance with said

Art Unit: 2622

virtual positions specified by said position specifying means, and a storing means to store an image of said desired area selected by said selecting means in col 7, line 64 – col 13, line 53.

Conclusion

5. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Twyler M. Lamb whose telephone number is 571-272-7406. The examiner can normally be reached on Mon, Tues and Thurs 6:30-5:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Edward L. Coles can be reached on 571-272-7402. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
